PHYSICAL PROPERTIES OF FOODS: MEASUREMENT OF THE QUALITY ATTRIBUTES

28.05.2007 – 01.06.2007

The training programme would focus on measurement of important instrumental quality attributes that are useful for quality control, product development and process standardization. Among them, the specific attributes that would be covered during the course are the measurement of texture, colour and rheological characteristics. The theory on the principle of measurement will be supplemented with demonstrations and explanations.
